Use Flex-C Arch to frame arches in a fraction of the time required by traditional methods. This sturdy product is manufactured to accommodate most doorway and window arch applications.

With Flex-C Arch you can easily form arches on site or shop form them ahead of time. Either way, Flex-C Arch ensures the highest job production rates.

Flex-C Arch allows installers to create perfectly formed arches that will eliminate call backs.

Create perfect arches in three easy steps:
First, shape Flex-C Arch to the desired radius by hand,
Second, install screws in the holes of the overlapping plates along one side,
Finally, slide Flex-C Arch over the rough opening and secure in place.

Standard sizes: 2"x4", 2"x6", 3-5/8" and 6"
for residential or commercial applications.
Available lengths: 5' and 8'

FLEX-C ARCH™
